AMGR VER221008

### PLEASE READ THE FOLLOWING INSTRUCTIONS BEFORE COMPLETING THIS CERTIFICATE

1. This Certificate will be used to provide proof of pedigree when applying for Kid Recording if you do not own the Buck and or Doe.
2. The Owner of the Buck is required to complete a Certificate of Service for every visiting Doe covered and for every Doe sold in kid to a Registered / recorded AMGR Buck.
3. The animal details are to be filled in correctly and completely preferably at the time of service. It is highly recommended that the Owner of the Doe ask to see the Buck measured PRIOR to service (list height).
4. The Service Certificate should be given to the Owner of the Doe, upon finalization of the servicing contract or when the Doe is sold.
5. The Buck Owner must keep accurate records of Breeding activities, including Services to visiting animals. The Buck Owner may submit a Buck Return to the AMGR with service details for each season.
6. Animal/s do not have to be registered, to be listed on the Certificate.
7. This Certificate is to be attached to the Registration Application and sent in when applying to register the resulting kid/s.
8. This Certificate may be photocopied and the copy/s used in addition to the original, if twins / triplets were born from this breeding.
9. Measurement listed on this certificate will be accepted as updated information submitted by the (Signing) Owner of the Buck. The Buck's Owner should only sign this Certificate AFTER it has been completely filled out.
